Customer is suggested to read all documents listed in below section "Offshore Product Offering Document" for detailed risk disclosure. In addition, Customer should read the Term Sheet, the Risk Disclosure Statement and other sales documents of the QDII Product, to understand the risk factors of the QDII Product.</u></p> <p>Investment Risk</p> <ul style="list-style-type: none"> ▪ The underlying investments of the Fund may fall in value and therefore your investment in the Fund may suffer losses. You may not get back the full amount of money you invest. In addition, the Fund primarily invests in equities or equity-related securities. Generally, equities or equity-related securities are subject to higher volatility and therefore higher risk of loss, compared to other instruments such as bonds, money markets instruments or bank deposits. <p>Emerging Markets Risk</p> <ul style="list-style-type: none"> ▪ The Fund may invest substantially in emerging markets which may have relatively unstable social, political and economic environments, less regulated securities markets and less developed accounting and disclosure standards. Emerging markets may have higher risk of expropriation and risk of remittance restrictions and be subject to currency exchange controls. The Fund may be more volatile and less liquid, and may have higher risk of loss, than funds which primarily invest in developed markets. <p>Currency Hedged Share Class Risk</p> <ul style="list-style-type: none"> ▪ The Investment Manager will implement a currency hedging strategy to limit the exposure to the currency position of the reference currency of the Fund and the currency denomination of the relevant Hedged Share Classes. However, there can be no assurance that the currency hedging strategy implemented by the Investment Manager will be successful. Foreign exchange rate fluctuation between the reference currency of the Fund and the currency denomination of the relevant Hedged Share Classes may result in a decrease in return and/or loss of capital for the shareholders.

<p>Key Risks of Offshore Product:</p>	<p>Derivatives Usage Risk</p> <ul style="list-style-type: none"> The Fund may use derivatives for the purposes of hedging and/or efficient portfolio management. In adverse situations, the Fund's use of derivatives may become ineffective in hedging and/or in efficient portfolio management and the Fund may suffer significant losses. <p>Exchange Rate Fluctuation Risk</p> <ul style="list-style-type: none"> Currency fluctuations may adversely affect the value of a Fund's investments and the income thereon. Currency fluctuations may also adversely affect the profitability of an underlying company in which a Fund invests.
<p>Fees of Offshore Product:</p>	<p>Management Fee: 1.5% of NAV p.a. (The Management fee is charged by the offshore issuer, and will be reflected and deducted from the NAV)</p> <p>Other fees may include performance fee, maintenance fee, custodian fee and other fees and taxes that may be charged in securities investment of offshore products, will be reflected and deducted from the offshore product NAV.
