ADJUSTMENTS, EXTRAORDINARY EVENTS, CORRECTION OF PRICES AND CONSEQUENCES OF DISRUPTED DAYS

<u>Adjustments</u>	
Potential Adjustment Events:	Applicable to an Underlier which is an Equity. Following the declaration by an Equity Issuer of the terms of any Potential Adjustment Event, the Bank will, in good faith acting in a commercially reasonable manner, determine whether such Potential Adjustment Event has a diluting, concentrative or other effect on the theoretical value of the relevant Equity and, if so, will: (i) make the corresponding adjustment, if any, to any terms of the SIP as the Bank in good faith acting in a commercially reasonable manner determines appropriate to account for that diluting or concentrative effect and (ii) determine the effective date of that adjustment. The Bank may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Equity traded on that options exchange. In its determination of the existence and extent of any dilutive, concentrative or other effect on the theoretical value of the relevant Equity of any Potential Adjustment Event, and any related adjustments to the terms of the SIP, the Bank shall take into account any amounts of Local Taxes that would, in the determination of the Bank, be withheld from or paid or otherwise incurred by the Bank in connection with such Potential Adjustment Event.
Index Adjustment Events:	Applicable to an Underlier which is an Index. If on or prior to any Fixing Date, an Index Modification or Index Cancellation occurs, or if on any Fixing Date, an Index Disruption occurs, then the Bank will, in good faith acting in a commercially reasonable manner, determine if such Index Adjustment Event has a material effect on the SIP and, if so, will calculate the closing price or closing level and any other prices or levels relevant to the SIP and make such determinations as

	appropriate using, in lieu of a published level for that affected Index (the “ Affected Index ”), the level for that Affected Index as at the Fixing Time on the Fixing Date as determined by the Bank by reference to the formula for and method of calculating that Affected Index last in effect prior to the change, failure or cancellation, but using only those Index Components that comprised that Affected Index immediately prior to that Index Adjustment Event, and/or by reference to the final official settlement price for settling futures or options contracts relating to the Affected Index on the Exchange on the Fixing Date.
<u>Extraordinary Events</u>	
Delisting, Merger Event, Tender Offer, Nationalisation, Insolvency and Insolvency Filing:	Applicable to an Underlier which is an Equity. Following the occurrence of such an event, the Bank will, in good faith acting in a commercially reasonable manner, determine whether the event have a diluting or concentrative or other effect on the theoretical value of the relevant Underlier, and if so, then the Bank may, in good faith acting in a commercially reasonable manner, determine the appropriate adjustment, if any, to be made to any terms of the SIP to account for such event, and determine the effective date of that adjustment. If the Bank determines that no adjustment that it could make will produce a commercially reasonable result, or the Bank is not able to make the relevant adjustment for any reason (including, without limitation, the revocation of the transaction by the hedging counterparty), the Bank will (i) determine and pay the Final Return Adjustment Amount (if any) to the Customer as soon as practicable and thereupon the Return Amount under the SIP shall be deemed to be zero; and (ii) pay the Principal Amount to the Customer on the Maturity Date. For avoidance of doubt, except for payment of the Final Return Adjustment Amount and the Principal Amount, no other or further amounts will be payable by the Bank in respect of the SIP in this case.
Extraordinary Fund Event:	Applicable to an Underlier which is a Unit. Following the occurrence of such an event, the Bank will, in good faith acting in a commercially reasonable manner, determine whether the event have a diluting or concentrative or other effect on the theoretical value of the relevant Underlier, and if so, then the Bank may, in good faith acting in a commercially reasonable manner, determine the appropriate adjustment, if any, to be made to any terms of the SIP to account for such event, and determine the effective date of that adjustment. If the Bank determines that no adjustment that it could make will produce a commercially reasonable result, or the Bank is not able to make the relevant adjustment for any reason (including, without limitation, the revocation of the transaction by the hedging counterparty), the Bank will (i) determine and pay the Final Return Adjustment Amount (if any) to the Customer as soon as possible and thereupon the Return Amount under the SIP shall be deemed to be zero; and (ii) pay the Principal Amount to the Customer on the Maturity Date. For avoidance of doubt, except for payment of the Final Return Adjustment Amount and the Principal Amount, no other or further amounts will be payable by the Bank in respect of the SIP in this case.
Change in Law and Hedging Disruption:	Applicable. Following the occurrence of such an event, the Bank will, in good faith acting in a commercially reasonable manner, determine whether the event have a diluting or concentrative or other effect on the theoretical value of the relevant Underlier, and if so, then the Bank may, in good faith acting in a commercially reasonable manner, determine the appropriate adjustment, if any, to be made to any terms of the SIP to account for such event, and determine the effective date of that adjustment. If the Bank determines that no adjustment that it could make will produce a commercially reasonable result, or the Bank is not able to make the relevant adjustment for any reason (including, without limitation, the revocation of the transaction by the hedging counterparty

	), the Bank will (i) determine and pay the Final Return Adjustment Amount (if any) to the Customer as soon as possible and thereupon the Return Amount under the SIP shall be deemed to be zero; and (ii) pay the Principal Amount to the Customer on the Maturity Date. For avoidance of doubt, except for payment of the Final Return Adjustment Amount and the Principal Amount, no other or further amounts will be payable by the Bank in respect of the SIP in this case.
Final Return Adjustment Amount:	An amount in the Settlement Currency determined by the Bank in good faith acting in a commercially reasonable manner, as reflecting the fair market value of the Reference Transaction net of all Hedging Costs (subject to a minimum of zero) on the date of occurrence of the relevant Extraordinary Event (or on such other date as shall be selected by the Bank) if the Reference Transaction were terminated on such date. For the purposes hereof, the “ Reference Transaction ” shall be a notional or hypothetical transaction pursuant to which the Bank would have received returns or payouts comparable to the Return Amount that the Customer was due to receive under the SIP.
<u>Correction of Prices</u>	
Correction of Prices:	In the event that any price quoted on an Exchange and which is utilised for any calculation or determination under the SIP is subsequently corrected and the correction is published by the Exchange within one Settlement Cycle after the original publication, the Bank may (but shall not be obliged to) notify the Customer of that correction and, in such case, the Bank will determine the amount that is payable to or by the Customer as a result of that correction, and the adjustment, if any, to be made to any terms of the SIP as the Bank in good faith acting in a commercially reasonable manner determines appropriate as a result of that correction.
<u>Consequences of Disrupted Days</u>	
Disruption of Fixing Date:	If the Scheduled Fixing Date is a Disrupted Day in respect of any Underlier, the Closing Level of each Underlier not affected by the occurrence of such Disrupted Day shall be determined on such day, and the Closing Level of each affected Underlier (the “Affected Underlier”) shall be determined on the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of the Affected Underlier, unless each of the eight Scheduled Trading Days immediately following the Scheduled Fixing Date is a Disrupted Day in respect of the Affected Underlier. In that case, the Bank will determine its good faith estimate of the value per Share or Unit (as the case may be) of the Affected Underlier as of the Fixing Time on that eighth Scheduled Trading Day and such estimated value will be regarded as the Closing Level of the Affected Underlier on the Scheduled Fixing Date. If the Fixing Date is a Disrupted Day in respect of any Underlier, for the purposes of determining the Knock-Out Event Redemption Date or Maturity Date (as the case may be), the Fixing Date shall be deemed to be the date on which the Closing Level of Affected Underlier is determined according to this provision (in the case there is more than one Affected Underlier, the last date on which the Closing Level of the Affected Underlier is determined shall be deemed to be the Fixing Date). For the avoidance of doubt, no interest or compensation will be payable by the Bank notwithstanding any postponement of the Knock-Out Event Redemption Date or the Maturity Date (as the case may be).

Equity B	60.50	No	
Equity C	121.00	No

(C) Determine a Knock-Out Event occurs on a Fixing Dates and the Knock-Out Return Amount (if any)

	Closing Level on Second Fixing Date	Knock-Out or not	Knock-Out Event Occurs?
Equity A	12.30	Yes	Yes
Equity B	61.50	Yes	
Equity C	123.00	Yes	

Fixing Date	Has a Knock-Out Event occurred?	Knock-Out Return Amount
16 April 2026	Yes	USD 27,500 = USD 1,000,000 × 2.750%
The SIP is early redeemed.		

In such scenario, the SIP tenor is approximately 6 months, and the Customer will, on the Knock-Out Redemption Date, receive USD 1,027,500 (i.e. sum of 100% of the Principal Amount of USD 1,000,000 and the Knock-Out Return Amount of USD 27,500). The simple annualized return rate will be approximately 5.50%p.a.

(D) Best Case on the Maturity Date and Worst Case Scenarios

Scenario 1 – Best Case on the Maturity Date

In the best case on the Maturity Date scenario where a Knock-Out Event occurs on the final Fixing Date, the Customer will receive a total Return of USD 110,000 for the tenor of the SIP and 100% of the Principal Amount on the Maturity Date.

Fixing Date	Has a Knock-Out Event occurred?	Knock-Out Return Amount
16 January 2026	No	N.A
16 April 2026	No	N.A
16 July 2026	No	N.A
16 October 2026	No	N.A
15 January 2027	No	N.A
15 April 2027	No	N.A
15 July 2027	No	N.A
15 October 2027	Yes	USD 1,000,000 × 11.00% = USD 110,000

In the best case on the Maturity Date scenario, the total return will be USD 110,000 for the tenor of approximately 24 months. The simple annualized return rate will be approximately 5.50% p.a.

Scenario 2 – Worst Case

In the worst case scenario where a Knock-Out Event does not occur, the Customer will receive 100% of the Principal Amount and the Final Return Amount on the Maturity Date.

Fixing Date	Has a Knock-Out Event occurred?	Knock-Out Return Amount
16 January 2026	No	N.A
16 April 2026	No	N.A
16 July 2026	No	N.A
16 October 2026	No	N.A
15 January 2027	No	N.A
15 April 2027	No	N.A
15 July 2027	No	N.A
15 October 2027	No	N.A

Final Return Amount = USD 1,000,000 × 0.00% = USD 0

In the worst case scenario, the total return will be USD 0 for the tenor of approximately 24 months. The simple annualized return rate will be approximately 0.00% p.a.

KEY RISKS

Please carefully read and understand the following risk reminder and the risk factors specified in the SIP Term Sheet, the SIP Order Form and other SIP Documents.

1.	<u>MAXIMUM RISK</u> - THE RETURN OF THIS SIP IS DEPENDENT ON THE PERFORMANCE OF THE UNDERLIER(S). IN THE WORST CASE SCENARIO, THE CUSTOMER WILL ONLY RECEIVE A RETURN AMOUNT OF APPROXIMATELY 0.00% OF THE PRINCIPAL AMOUNT AT MATURITY. - NO EARLY TERMINATION IS PERMITTED UNLESS THE BANK AT ITS SOLE DISCRETION AGREES TO TERMINATE THE SD BEFORE THE MATURITY DATE. EVEN IF THE BANK ALLOWS EARLY TERMINATION OF THE SD, THE AMOUNT THAT YOU WILL RECEIVE UPON AN EARLY TERMINATION MAY BE LESS THAN 100% OF THE PRINCIPAL AMOUNT.
2.	<u>NOT A TRADITIONAL DEPOSIT</u> THIS SIP IS STRUCTURED DEPOSIT THAT CARRIES RISKS NOT NORMALLY ASSOCIATED WITH ORDINARY BANK DEPOSITS. THE CUSTOMER SHOULD THEREFORE NOT TREAT THE SIP AS A SUBSTITUTE FOR ORDINARY SAVINGS OR TIME DEPOSITS.
3.	<u>SUITABILITY</u> - PROSPECTIVE CUSTOMERS SHOULD ENSURE THAT THEY UNDERSTAND THE CHARACTERISTICS OF THE SIP AND THE NATURE OF THE RISKS ASSOCIATED WITH THEIR INVESTMENT THEREIN AND THAT THEY CONSIDER THE SUITABILITY OF THE SIP AS AN INVESTMENT IN THE LIGHT OF THEIR OWN CIRCUMSTANCES AND FINANCIAL CONDITION. - IN PARTICULAR, PROSPECTIVE CUSTOMERS SHOULD NOTE THAT THE SIP IS AN APPROXIMATELY 24-MONTH PRODUCT (ASSUMING THAT THE KNOCK-OUT EVENT

	DOES NOT OCCUR OR OCCURS ON THE FINAL FIXING DATE) AND SHOULD NOT FORM A SUBSTANTIAL PORTION OF THEIR INVESTMENT PORTFOLIO.
4.	<u>SUMMARY INFORMATION ONLY</u> THIS RISK DISCLOSURE STATEMENT AND THE SIP TERM SHEET CONTAIN SUMMARY INFORMATION ONLY. IT DOES NOT CONTAIN ALL OF THE TERMS AND CONDITIONS (MATERIAL OR OTHERWISE) OF THE SIP AND THE CUSTOMER IS ADVISED TO REVIEW ALL OF THE DOCUMENTS REFERRED TO UNDER THE SECTION HEADED “DOCUMENTATION” IN THE SIP TERM SHEET. IF THE CUSTOMER REQUIRES FURTHER INFORMATION IN RELATION TO THE SIP, PLEASE CONTACT THE BANK.
5.	<u>PRINCIPAL AMOUNT RECEIVED UPON REDEMPTION</u> THE CUSTOMER WILL RECEIVE 100% OF THE PRINCIPAL AMOUNT (A) ON THE MATURITY DATE, ONLY IF THE CUSTOMER MAINTAINS THE SIP UNTIL THE MATURITY DATE, OR (B) ON THE RELEVANT KNOCK-OUT EVENT REDEMPTION DATE IF A KNOCK-OUT EVENT OCCURS IN RESPECT OF ANY FIXING DATE AND THE CUSTOMER MAINTAINS THE SIP UNTIL THAT KNOCK-OUT EVENT REDEMPTION DATE, PROVIDED ALWAYS THAT THE BANK DOES NOT EXERCISE ITS RIGHT TO EARLY TERMINATE THE SIP PURSUANT TO SECTION 11 “ILLEGALITY” OF THE SIP TERMS AND CONDITIONS.
6.	<u>Liquidity Risk and Early Withdrawal Risk</u> - The SIP is an approximately 24-month commitment by the Customer and no early uplift, early withdrawal or early termination by the Customer is permitted. The Customer has to hold the SIP till the Maturity Date except that the Bank may exercise its right to early terminate the SIP pursuant to Section 11 “Illegality” of the SIP Terms and Conditions. - IF ALLOWED BY THE BANK AT ITS SOLE AND ABSOLUTE DISCRETION, THE AMOUNT THAT THE CUSTOMER WILL REALISE UPON A WITHDRAWAL PRIOR TO THE MATURITY DATE WILL USUALLY BE SUBSTANTIALLY LESS THAN 100% OF THE PRINCIPAL AMOUNT.
7.	<u>SIP Terms and Return</u> - Certain parameters in respect of the SIP (e.g. Closing Date of Offer and the Knock-Out Level) may be affected by a number of market factors including changes in the value and volatility of the underlying asset(s), changes in foreign exchange rates and economic, financial and political events that are difficult to predict, and thus may be subject to appropriate adjustments by the Bank. - If a Knock-Out Event does not occur, the Customer will receive a return amount of approximately 0.00% of the Principal Amount on the Maturity Date.
8.	<u>Market Risk</u> - The return of this SIP is dependent on the performance of Underliers. Changes in the price or value of the Underliers under SIP can be unpredictable, sudden and large. Such changes may result in the price or value of the SIP moving adversely to the interests of the Customer and negatively impacting upon the return on the SIP. - Investing in SIP linked to a basket of equities rather than a single equity may be more complex and possibly involve a greater degree of risk as the return on the SIP depends on the performance of all the equities and their correlation (rather than a single equity)
9.	<u>Risks relating to Underliers</u> The risks relating to Underliers will be reflected on the investment of this SIP, especially if the Underlier is newly listed equity or equity listed on the emerging markets, changes in the price of those Underliers can be more volatile, and with poorer liquidity compared to other equities; If the Underlier is Funds or exchange traded funds (ETF), the Customer should pay attention

	to the risks relating to Funds or ETF, and can refer to the relevant offering documents for further information.
10.	<u>Risks relating to Funds</u> - Where the Underlier consists of units in a fund, collective investment scheme, pooled investment vehicle or the like (a “Fund”), neither the Bank nor its Affiliates have the ability to control or predict the actions of the Trustee or the Manager of the Fund. The Fund is not, and its Trustee and Manager are not, involved in the offer of this SIP in any way, and none of them has any obligation to consider the interest of the Customer in taking any actions with regard to the Fund that might affect the value of the SIP. - The Bank will not have any role in the Fund. The Manager of the Fund is responsible for making strategic, investment and other trading decisions with respect to the management of the Fund consistent with its investment objectives and/or investment restrictions as set out in the Fund Documents. The manner in which the Fund is managed and the timing of such decisions will have a significant impact on the performance of the Fund and hence, on the value of the Fund and the price of Units in the Fund.
11.	<u>Adjustments, Extraordinary Events and Market Disruption Event</u> - If certain Adjustments or Extraordinary Events occur, the Bank is entitled to make certain adjustments or amendments to the terms and conditions of the SIP, and these adjustments or amendments will have an impact on the performance and terms of the SIP. Please note: The Bank reserves the rights not to make any adjustments. In the case of Extraordinary Events, if the Bank determines that any adjustments that the Bank could make will not produce a commercially reasonable result, or the Bank cannot make related adjustments for any reason (including but not limited to the Bank's hedging transaction counterparty withdrawing relevant transaction), the Bank will determine and pay the Final Return Adjustment Amount (if any) to the Customer and thereupon, the Customer will cease to be entitled to receive any investment return from the SIP. In such case, the Customer will still have to wait until the Maturity Date for the payment of the Principal Amount. The Customer should note that the Final Return Adjustment Amount is likely to be zero. - If Scheduled Fixing Date is a Disrupted Day in respect of any Underlier, the Closing Level of each Underlier not affected by the occurrence of such Disrupted Day shall be determined on such day, and the Closing Level of each affected Underlier (the “Affected Underlier”) shall be determined on the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of the Affected Underlier, unless each of the eight Scheduled Trading Days immediately following the Scheduled Fixing Date is a Disrupted Day in respect of the Affected Underlier. In that case, the Bank will determine its good faith estimate of the value per Share or Unit (as the case may be) of the Affected Underlier as of the Fixing Time on that eighth Scheduled Trading Day and such estimated value will be regarded as the Closing Level of the Affected Underlier on the Scheduled Fixing Date. If the Fixing Date is a Disrupted Day in respect of any Underlier, for the purposes of determining the Knock-Out Event Redemption Date or Maturity Date (as the case may be), the Fixing Date shall be deemed to be the date on which the Closing Level of Affected Underlier is determined according to this provision (in the case there is more than one Affected Underlier, the last date on which the Closing Level of the Affected Underlier is determined shall be deemed to be the Fixing Date). For the avoidance of doubt, no interest or compensation will be payable by the Bank notwithstanding any postponement of the Knock-Out Event Redemption Date or the Maturity Date (as the case may be).
12.	<u>Discretion of the Bank</u> The Bank has the discretion to determine whether a Market Disruption Event or Adjustment or Extraordinary Event has occurred and in making any resulting adjustments to the terms of the SIP, and making calculations as described in the SIP Term Sheet. Any such discretion exercised by, or any calculation made by, the Bank (in the absence of manifest error) shall be binding and conclusive on the Customer. However, the Bank has a general duty to act in good faith.

13.	<u>Potential Conflicts of Interest</u> The Bank and its Affiliates play a variety of roles in connection with the SIP, including acting as counterparty and calculation agent and hedging its obligations under the SIP. The Bank and/or its Affiliates may also enter into, adjust and unwind transactions relating to the Underliers, whether for its or its Affiliates' proprietary accounts or for accounts under management or to facilitate transactions on behalf of customers or otherwise. In carrying out these roles, the Bank's economic interests and those of its Affiliates are potentially adverse to the Customer's interests as counterparty in the SIP.
14.	<u>The Customer must rely on its own evaluation of the merits of the SIP</u> In the ordinary course of their businesses, the Bank and/or its Affiliates may from time to time express views on expected movements in the prices or values of the Underliers. These views are sometimes communicated to clients. However, these views, depending upon worldwide economic, political and other developments, may vary over differing time horizons and are subject to change. In connection with the SIP, the Customer must make its own evaluation of the merits of the SIP and the Customer must not rely on any views which may be expressed by the Bank and/or its Affiliates in the ordinary course of their businesses with respect to future price movements in the Underliers.
15.	<u>Historical information about the price or value for the relevant Underliers may not be indicative of future price or value</u> Historical information on the price or value of the relevant Underliers, and any hypothetical historical information concerning the relevant Underliers which may be provided to the Customer is for information only, and the Customer should not regard the information as indicative of the range of, or trend in, or future fluctuation in the price or value of the Underliers, the future performance of the SIP or what the investment return may be.
16.	<u>Credit Risk</u> The Customer is taking on the credit risk the Bank.
17.	<u>Foreign Exchange Rate Risk</u> Where the Customer has converted amounts from another currency into USD in order to make the investment in the SIP, the Customer should bear in mind the risk of exchange rate fluctuations that may cause a loss on conversion of the USD back into such other currency.
18.	<u>Compounding of Risks</u> An investment in the SIP involves risks and should only be made after assessing, for example, the direction, timing and magnitude of potential future changes in the price or value of the Underlier, interest rates, exchange rates, and the terms and conditions of the SIP. More than one risk factor may have simultaneous effects with regard to the SIP such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect, which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the SIP.
19.	<u>No Claim against the Underliers</u> The Customer does not have any interest in the Underliers during the tenor of the SIP, and will not be entitled to receive any dividends or enforce any other rights declared by the Equity Issuer during the tenor of the SIP.
