EVEN IF THE BANK ALLOWS EARLY TERMINATION OF THE SD, THE AMOUNT THAT YOU WILL RECEIVE UPON AN EARLY TERMINATION MAY BE LESS THAN 100% OF THE PRINCIPAL AMOUNT.</li> </ul>
<p>2.</p>	<p><b><u>NOT A TRADITIONAL DEPOSIT</u></b></p> <ul style="list-style-type: none"> <li>• THIS SIP IS A FORM OF STRUCTURED DEPOSIT THAT CARRIES INVESTMENT RISKS NOT NORMALLY ASSOCIATED WITH ORDINARY BANK DEPOSITS. THE CUSTOMER SHOULD THEREFORE NOT TREAT THE SIP AS A SUBSTITUTE FOR ORDINARY SAVINGS OR TIME DEPOSITS. INSTEAD, THE CUSTOMER SHOULD FULLY UNDERSTAND INVESTMENT RISKS AND INVEST CAUTIOUSLY.</li> </ul>
<p>3.</p>	<p><b><u>SUITABILITY</u></b></p> <ul style="list-style-type: none"> <li>• PROSPECTIVE CUSTOMERS SHOULD ENSURE THAT THEY UNDERSTAND THE CHARACTERISTICS OF THE SIP AND THE NATURE OF THE RISKS ASSOCIATED WITH THEIR INVESTMENT THEREIN AND THAT THEY CONSIDER THE SUITABILITY OF THE SIP AS AN INVESTMENT IN THE LIGHT OF THEIR OWN CIRCUMSTANCES AND FINANCIAL CONDITION.</li> <li>• IN PARTICULAR, PROSPECTIVE CUSTOMERS SHOULD NOTE THAT THE SIP IS AN APPROXIMATELY 9-MONTH PRODUCT AND SHOULD NOT FORM A SUBSTANTIAL PORTION OF THEIR INVESTMENT PORTFOLIO.</li> </ul>
<p>4.</p>	<p><b><u>SUMMARY INFORMATION ONLY</u></b></p> <ul style="list-style-type: none"> <li>• THIS RISK DISCLOSURE STATEMENT AND THE SIP TERM SHEET CONTAIN SUMMARY INFORMATION ONLY. IT DOES NOT CONTAIN ALL OF THE TERMS AND CONDITIONS (MATERIAL OR OTHERWISE) OF THE SIP AND THE CUSTOMER IS ADVISED TO REVIEW ALL OF THE DOCUMENTS REFERRED TO UNDER THE SECTION HEADED "DOCUMENTATION" IN THE SIP TERM SHEET. IF THE CUSTOMER REQUIRES FURTHER INFORMATION IN RELATION TO THE SIP, PLEASE CONTACT THE BANK.</li> </ul>
<p>5.</p>	<p><b><u>PRINCIPAL AMOUNT RECEIVED UPON REDEMPTION AT MATURITY DATE</u></b></p> <ul style="list-style-type: none"> <li>• The Customer will receive 100% of the Principal Amount on the Maturity Date, only if the Customer maintains the SIP until the Maturity Date and the Bank does not exercise its right to early terminate the SIP pursuant to Section 11 "Illegality" of the SIP Terms and Conditions.</li> </ul>
<p>6.</p>	<p><b><u>Liquidity Risk</u></b></p> <ul style="list-style-type: none"> <li>• The SIP is an approximately 9-month commitment by the Customer and no early uplift, early withdrawal or early termination by the Customer is permitted. The Customer has to hold the SIP till the Maturity Date except that the Bank may exercise its right to early terminate the SIP pursuant to Section 11 "Illegality" of the SIP Terms and Conditions.</li> </ul>

**7. Market Risks**

- The total payout the Customer receives for the whole SIP tenor may be less than the return or interest the Customer may otherwise have received from other investments, in particular, if the interest rate for ordinary **USD** deposits increases significantly during the tenor of the SIP, such interest rate may be higher than the Return Rate under the SIP.
- The Customer's attention is drawn to the following (which is not exhaustive):
  - (a) The investment return on the SIP is dependent on the performance of the Spot **AUD/USD** Rate at the Fixing Time on the Final Fixing Date. Past performances and back-testing results of the relevant exchange rate does not guarantee and are not indicative of its future performance. If the spot **AUD/USD** Rate at the Fixing Time on the Final Fixing Date is lower than or equal to the Strike Rate, the Customer will only receive a Return Rate of 3.37%; If the spot **AUD/USD** Rate at the Fixing Time on the Final Fixing Date is equal to or higher than the Barrier Rate, the Customer will only receive a Return Rate of 3.37%.
  - (b) The SIP has investment risks. The Customer will only receive a return determined in the manner set out in the SIP Term Sheet and other SIP Documents. The Customer should fully understand the investment risks before making any investment in the SIP.
- Certain parameters in respect of the SIP (e.g. Closing Date of Offer ) may be affected by a number of market factors including the linked spot **AUD/USD** Rate and volatility of the relevant currencies, changes in foreign exchange rates and economic, financial and political events that are difficult to predict, and thus may be subject to appropriate adjustments by the Bank.

**8. Foreign Exchange Rate Risk**

- The SIP may not be suitable for Customers who are not familiar with the spot **AUD/USD** Rate or the factors that affect movements in such exchange rate. The spot **AUD/USD** Rate will be influenced by the complex and interrelated global and regional political, economic, financial and other factors that can affect the currency markets on which each of the currencies is traded. The spot **AUD/USD** Rate may change over time as a result of the interaction of many factors directly or indirectly affecting economic and political conditions in the countries (or special administrative regions) in which such currencies are circulated as legal tender, particularly relative rates of inflation, interest rate levels, the balance of payments and the extent of governmental surpluses or deficits in those countries (or special administrative regions).
- Foreign exchange rates can either be fixed by the government, allowed to float within a range of exchange rates set by the government, or left to float freely. Governments, including those issuing the currencies to which this SIP relates, use a variety of techniques, such as intervention by their central bank or imposition of regulatory controls or taxes, to affect the exchange rates of their respective currencies. They may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by devaluation or revaluation of a currency. Thus, the value of the SIP and amounts payable under the SIP could be affected by the actions of sovereign governments that could change or interfere with previously freely determined currency valuations, fluctuations in response to other market forces and the movement of currencies across borders. There will be no offsetting adjustment or change made during the term of the SIP in the event that the exchange rates should become fixed (or in the case of certain currencies, become floating), or in the event of any devaluation or revaluation or imposition of exchange or other regulatory controls or taxes or in the event of other developments affecting any of the currencies to which this SIP relates, or any other currency.
- In addition, transactions involving or related to the currencies of emerging markets such as the currencies to which this SIP relates are also subject to greater risks than investments in currencies of other markets.
- FURTHER, WHERE THE CUSTOMER HAS CONVERTED AMOUNTS FROM ANOTHER CURRENCY INTO **USD** IN ORDER TO MAKE THE INVESTMENT IN THE SIP, THE

	CUSTOMER SHOULD BEAR IN MIND THE RISK OF EXCHANGE RATE FLUCTUATIONS THAT MAY CAUSE A LOSS ON CONVERSION OF THE <b>USD</b> BACK INTO SUCH OTHER CURRENCY.
9.	<p><b><u>Volatility of currency markets</u></b></p> <ul style="list-style-type: none"> <li>• The foreign exchange rates have in the past been, and may continue to be, volatile.</li> </ul>
10.	<p><b><u>The Bank will make a good faith determination of the spot AUD/USD Rate or the value of one or more currencies if the relevant screen rate is not available</u></b></p> <ul style="list-style-type: none"> <li>• If the relevant screen rate is not available on the relevant date, the Bank will determine the spot AUD/USD Rate or relevant exchange rate in good faith and in a commercially reasonable manner.</li> </ul>
11.	<p><b><u>There are potential conflicts of interest</u></b></p> <ul style="list-style-type: none"> <li>• The Bank and its affiliates play a variety of roles in connection with the SIP, including acting as counterparty and calculation agent and hedging its obligations under the SIP. The Bank and/or its affiliates may also enter into, adjust and unwind transactions relating to the relevant currencies, whether for its or its affiliates' proprietary accounts or for accounts under management or to facilitate transactions on behalf of customers or otherwise. In carrying out these roles, the Bank's economic interests and those of its affiliates are potentially adverse to the Customer's interests as counterparty in the SIP.</li> </ul>
12.	<p><b><u>The Customer must rely on its own evaluation of the merits of the SIP</u></b></p> <ul style="list-style-type: none"> <li>• In the ordinary course of their businesses, the Bank and/or its affiliates may from time to time express views on expected movements in the exchange rates of the relevant currencies or other currencies. These views are sometimes communicated to clients. However, these views, depending upon worldwide economic, political and other developments, may vary over differing time horizons and are subject to change. In connection with the SIP, the Customer must make its own evaluation of the merits of the SIP and the Customer must not rely on any views which may be expressed by the Bank and/or its affiliates in the ordinary course of their businesses with respect to future price movements in the relevant currencies or other currencies.</li> </ul>
13.	<p><b><u>Historical information about the exchange rates for the relevant currencies may not be indicative of future values</u></b></p> <ul style="list-style-type: none"> <li>• Historical information on the exchange rates, and any hypothetical historical information concerning the composite relevant currencies which may be provided to the Customer is for information only, and the Customer should not regard the information as indicative of the range of, or trends in, or future fluctuations in the exchange rates, the future performance of the SIP or the exchange rate on the Final Fixing Date may be.</li> </ul>
14.	<p><b><u>Credit Risks</u></b></p> <ul style="list-style-type: none"> <li>• The Customer is subject to the credit risk of the Bank.</li> </ul>
15.	<p><b><u>Compounding of Risks</u></b></p> <ul style="list-style-type: none"> <li>• An investment in the SIP involves various risks and should only be made after assessing, for example, the direction, timing and magnitude of potential future changes in the value of the interest rates, exchange rates and the terms and conditions of the SIP. More than one risk factor may have simultaneous effects with regard to the SIP such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect, which may not be predictable. No assurance can be given by the Bank as to the effect that any combination of risk factors may have on the value of the SIP.</li> </ul>
